

Restoration of the Victorian – Georgian Organ in Holy Trinity, Gosport

A “Handel” Organ

Adopt An Organ Pipe – Why Not? Something special for you!

Here is a chance for you to adopt one or more unique Jordan organ pipes dating from 1720 (and closely associated with Handel) whilst contributing to the restoration of the 1897 Hill organ in which these historic pipes play a central role. (Or you could adopt a Victorian big pedal pipe!) When you adopt a pipe, your name and chosen pipe (or pipes) will be displayed on the organ case. You will be identified for ever as someone who helped to restore this organ masterpiece for future generations to enjoy. You can't take your pipe away, but you can come and listen to it!

Select your pipe or pipes from the chart below, and complete the application form, sending it with your cheque to the address below. You will then be allocated a precise, named pipe.

There are twelve pipes in each octave (Thirteen in the top octave). They are identified thus:-

C C# D Eb E F F# G G# A Bb B (and the top octave has also Cc)

The cost of adopting one pipe from a chosen octave is shown below. The longer pipes are more expensive than the shorter ones (2 feet down to a few inches)

Jordan Pipes	Bass Octave 1	Tenor Octave 2	Alto Octave 3	Treble Octave 4
